

# Connect the web to Salesforce

*and so much more*

## Seamless Salesforce integration:

- ✓ Create and update multiple standard & custom Salesforce objects.
- ✓ Create and update multiple Salesforce Marketing Cloud data extensions & subscribers.
- ✓ Use conditional logic & branching to create or update the right records.
- ✓ Authenticate form access via Salesforce login and Communities.
- ✓ Prefill the form with data from Salesforce & Salesforce Marketing Cloud.
- ✓ Upload files to the Salesforce Lightning 'Files' tab and include in Chatter posts.

## Powerful form building platform:

- ✓ Build beautiful forms quickly with a drag-and-drop form builder.
- ✓ Add additional complexity with repeatable and conditional options.
- ✓ Process data securely with encryption through TLS 1.2.
- ✓ Collect PHI with a HIPAA-compliant Compliance Cloud Plan.
- ✓ Process payments using PayPal, Stripe, Authorize.net, more.
- ✓ Purchase Implementation Services for advanced form building assistance.
